comes to its municipal history. He will find,

after years of agitation, years in which the

Administration persistently refused to grant to

the inhabitants the privileges of self-government—an Incorporation Act passed. He

will see this act, like a rickety child per-

petually requiring the aid of a physician.

One act after another is introduced to cure

it, but the influence of its authors is too

great for the efforts at reform, and so the

thing is retained in all its useless deformity

The farce of electing a Mayor and Council,

who can tax nobody, and who are powerless

even to clean a street, is carried on year after year; and all attempts to preserve the

of the city might possibly be at variance

with those of the general inhabitants. This

however, we consider a libel on the faculty;

for we scarcely think that any body of men could be found in Vancouver Island whose

hnmanity is at so low an ebb as to welcome

filthy streets and germinators of disease. It

is, at the same time, a remarkable fact that

there is but one medical man in the House,

Dr. Dickson, who evinces an active desire to

see, by the passage of a proper Act, more

healthy regulations in the city. The other doctors, either by their non-attendance or by

their opposition to any measure for placing the Mayor and Council in a useful and dig-

measure before the House fully justify what

we say. Yesterday the bill passed through

Committee, would have been read a third

time on Friday and sent to the Upper House

tors. These Solons thought certain clauses

that gave the control of the police into the

hands of the city authorities should be re-

committed, and with the casting vote of Dr. Helmcken the motion was carried. The

effect will be to make the bill as uscless a

its predecessors, and throw the Legislature

as well as the city into no end of ridicule

What makes the matter the more censurable

is that during the debate on the very clauses

which are now recommitted not a word was

spoken against them. It cannot be said

either that any of the members were startled

by the newness of the subject matter; for the

House, in the debate on the supplies, ordered

the substance of the clauses in question to

be embodied in the bill to be introduced-ar

order which was supported by some of th

very gentlemen who now turn round and op

pose it. The citizens of Victoria will, there

fore, have these individuals to thank i

tion Act. They will have these individuals

During the intermission, Mr. Spencer explained the theory of his system through the medium of a little boy named Fox, who proved himself to be quite an adept, and was loudly cheered by the audience. Dr. Helmcken said.—This is the Union and Tariff party. The tariff with a skin (laughter) or without one. The hone gentleman wants free trade, free port, and British mansfactures cheap. His views must have undergone the usual change which was characteristic of the hone gentleman.

Mr. DeCosmos said his views on tariff had not changed; they had always been for a discriminating tariff; he never meant to tax everything at a uniform rate. The idea was absurd. He supported taxing the imported luxuries and those articles which interfered with the development of the colony's rewith the development of the colony's re-Dr. Helmcken asked whether that was the

view that went forth and was understood by the people?

Mr. DeCosmos—Yes, certainly.

Dr. Helmeken donied that it was.

Mr. McClure said that the whole discussion had become irrelevant; but he thought the hon. Speaker knew better than to impute to those who advected whom and traff the second in those who advocated union and tariff the absurdity of desiring all imported articles to pay a uniform duty. What was advocated when sardity of desiring all imported articles to pay a uniform duty. What was advocated when the agitation first commenced was the same policy which was advocated now, and which had been touched upon by the senior member for the city—a discriminating tariff that would, while protecting home interests, interfere as little as possible with commerce (hear, hear). The clause was then passed, and the vari-

Dr. Trimble moved for a recommittal of the clauses placing the police under the con-trol of the City Council. He objected to the Council having the force under their control,

besides he wanted to see some provision made for the stipendiary magistrate looking after offences committed outside the city imits.

Mr. MrClure said the hon, gentleman merely wanted to kill the bill by prolonging needless discussion. The question had been lebated during the last two sittings of the Unions and there was applied time for the

The idea of asking the House to make provision in an Incorporation bill for things done outside the Council's jurisdiction was too absurd for a moment's consideration. (Hear, hear). The jurisdiction of the Stipendiary Magistrate was in no way affected by the bill.

The motion for recommittal was then put with the following result:

THE SUPPOSED GREAT MOBBERY.

NEW YORK, March 15—It now appears that McClond, the New York capitalist whose effice was said to have been robbed the other day to the amount of a million and a balf dollars does not remember where he last counted the contents of the missing tin box, therefore it is not known to a certainty when the robber, if any was committed. From the robbery, if any, was committed. From his well known forgetfulness and carelessness the New York papers infer the bonds may yet be found in some secure place where he

CHICAGO, March 15—The defeat of the bill regulating trade with Canada, by a vote of 57 to 52, was almost entirely due to the animosity lelt by members toward Canada for its unfriendly conduct during the late war. STAMPEDE TO THE MONTANA MINES. STANFEDE TO THE MONTANA MIRES.

ST. LOUIS, March 15—The upper river trade with Moutana and Idaho opens briskly. The chief feature of the spring business is that the advertisements of boats for Fort Benton fill two columns of the daily papers, and immense quantities of goods are being purchased for shipment. Several boats have already left and not less than 75 are now rescribed from the total content of the c ceiving freight and passengers. The Fenian hugbear continues to excite our Caradian neighbors. Toronto and Montreal papers are filled with details of military movements and preparations. Mass meetings of the Fenians are held daily. The Fenians now allege that the whole Canadian excitement is founded on a British scheme to form a confederation and place a British Prince on an American throne.

Accidents will occur in the nursery in spite of the greatest caution and utmost vigilance. The scratch, the burn, or the scald, treated early with this Ointment, assumes no angry aspect, and never long tortnes the little sufferer, whose very cry excites each bystander's compassion and pierces the paracts heart. HOLLOWAY OINTMENT AND PILLS.—Fistu las, Piles, Excoriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with warm water. Persons suffering from these securges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistuias, if long allowed to go on unchecked, not only weaken the nervous system, but destroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. Holloway's Pills —No family should be without these pills.—Their long-tried efficacy in removing indigestion, atimulating the bowels, and purifying the blood, have secured them imperishable praise throughout the globe. Whatever the disease, a few doses will relieve the more urgent symptoms and thereafter completely control all disordered action, rouse the torpid liver, empty the engarged spleen, clense the obstructed kidneys, assimilate the food, improve the blood, and thereby confer on the brain and every function healthful vizour natural activity, and wholesome regularity. In cases of indigestion, dimness of sight, headache, mental and physical lassitude, these restorative Pills act as a charm. They expel rheamatism and gout, while they inf-liblely correct female complaints in young and old, delicate and robust.

complaints in young and old, delicate and robust.

Holloway's Pills and Ointment—Stomach, and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed and greatly augments the purifying and salutary influence of the Pills.

the soothing action of this Ointment is most re,
markable; it seems at once to lessen inflammation,
ease pain, reduce the swelling, restore the frecirculation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills
are an infallible specific. The Ointment should
be rubbed as near the part in pain as the patient
can bear; it is absorbed and directly conveyed to
the diseased textures, when, acting on nerver,
vessels, and guiders, it will arrest disease and
again establish healthy action. The aperient and
purifying qualities of the Pills have the happies
effect in assisting the Ointment.

Holloways Pills.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerful activity of the physical and mental functions. Indirection is the parent of so many evile, and is no common, so universal a complaint, that it is a great biessing that such a remedy as this invaluable medicine should have been discovered. No one need long suffer from indigestion what these Pille ar nand.
